

Assessment Task 1: Problem-Solving Challenge (20%)

Arnold Group Presentation
A presentation summarising
key findings, observations and
proposed solutions.

By Algo-Rhythm

Casey 22224473

Holly 22158649

Jayna 22220347

Arnold Scenario 1 – Fix, improve, provide evidence via screen shots

- Question 1 – Identify the possible problems with Arnold's website and provide Arnold with some solutions to fix and enhance his website. You should fix the website and document what you have fixed for your presentation.

Take screen shots of your code fix, evidence of using validation software and Google tools and an explanation on what you have done to fix or improve the code.

Scenario 1 Issues

Terminator 1's main issues represented on the right and the fix represented below.

As shown by w3's Validator technology, the title was placed between the </head> and <body> elements which in turn caused a range of issues.

From having a missing part, to not being able to function properly. To correct this, moving the title into the <head> created functionality.

The language was set to "en-GB", I don't know what that is so I changed it to English.

An additional issue faced was a lack of <p> and </p> tags. This caused the paragraph of content to be misplaced and sourced onto the webpage as an alternate element. Correcting this provided a systematic flow.

Missing the copyright tag, suppressing acknowledgment of sources.

1. **Error** Element `<head>` is missing a required instance of child element `<title>`.

```

Scenario 1 Issues

The page for Terminator 2 had a significant starting issue...

```
1 <!DOCTYPE html>
2 <html lang="en" dir="rtl">
```

Rtl= Right to Left

```
1 <!DOCTYPE html>
2 <html lang="en" dir="ltr">
```

Ltr= Left to Right

A screenshot of a Microsoft Edge browser window titled "Terminator 2". The address bar shows the file path: C:/Users/Holly/OneDrive/Desktop/arnold_scenario1/terminator2.html. The page content is displayed in two columns. On the left, the text "The original error showcased." is written in red. On the right, the movie title "Terminator 2: Judgement Day" is at the top, followed by the plot summary: "A cyborg, identical to the one who failed to kill Sarah Connor, must now protect her teenage son, John Connor, from a more advanced and powerful cyborg". Below the plot summary is the source link: "Source: <https://www.imdb.com>".

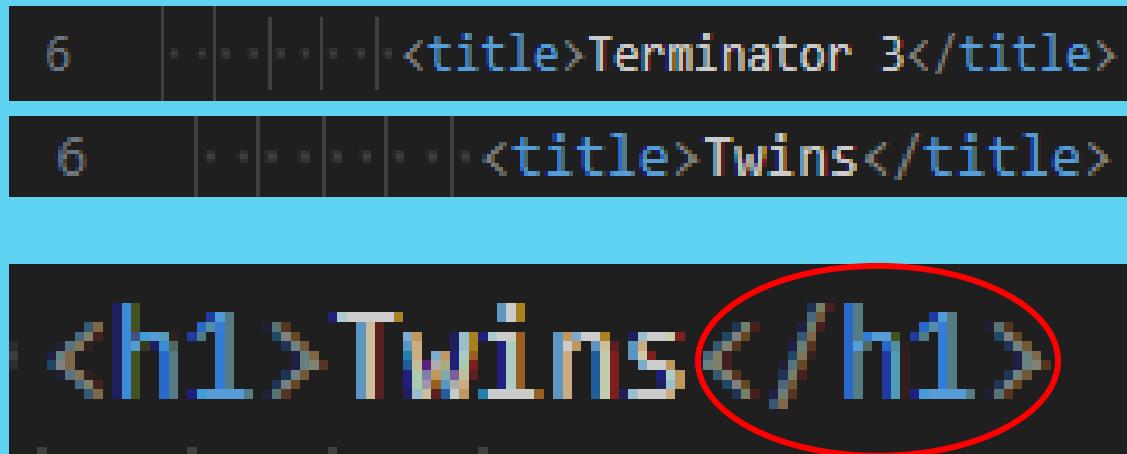

A screenshot of a Microsoft Edge browser window titled "Terminator 2". The address bar shows the file path: C:/Users/Holly/OneDrive/Desktop/arnold_scenario1/terminator2.html. The page content is displayed in two columns. On the left, the movie title "Terminator 2: Judgement Day" is at the top, followed by the plot summary: "A cyborg, identical to the one who failed to kill Sarah Connor, must now protect her teenage son, John Connor, from a more advanced and powerful cyborg". Below the plot summary is the source link: "Source: <https://www.imdb.com>". On the right, the text "The fixed result." is written in red.

Furthermore, the pages original <h1> was only Terminator 2, adding the full title shows professionalism and care. Also fixed the copyright tag.

Scenario 1 Issues

The Twins/Terminator 3 problems range from:

- An incorrect title, resulting in near catastrophic effects, such as someone believing Twins is about cyborgs and killing people.
- Missing </h1> tags, losing the title within the body of your website, Arnold.
- No target ("_blank"), for the hyperlink. The hyperlink is also to Imdb Terminator 3.
- Having the same description as the other file, Terminator 2.

```
C:\> Users > Holly > OneDrive > Desktop > arnold_scenario1 > terminator3.html > ...
1  <!DOCTYPE html>
2  <html lang="en" dir="ltr">
3  <head>
4  <meta charset="utf-8">
5  <title>Twins</title>
6  </head>
7  <body>
8  <h1>Terminator 3: Rise of the machines</h1>
9  <p>A cyborg, identical to the one who failed to kill Sarah Connor, must now protect her teenage son, John Connor, from a more advanced and powerful cyborg.</p>
10 <p>Source: <a href="https://www.imdb.com/title/tt0181852/?ref_=nv_sr_lsg_0">https://www.imdb.com</a></p>
11 </body>
12 </html>
13
```

Scenario 1 Issues

Furthermore... to correct these issues, utilising the hyperlink source contained within the Terminator 3 page, we pooled the information and have an alternate page for either.

Term3 page needed:

- Fixed title from Twins -> Terminator 3.
- Missing </h1> tag.
- Wrong body content, differential storyline.
- Two quotation marks at the end of the hyperlink. Plus no target _blank.
- Copyright <p>©

Twins page needed:

- Fixed title
- Fixed h1 content
- Fixed </h2></h2>
- Copyright=©
- No anchoring or href tags for the hyperlink, furthermore, no "_blank".
- The biggest issue of all, is that they imply Danny Devito is a beast, when he just a lil guy.
- Copyright <p>©

Scenario 2

Index: Before and After

Arnold Schwarzenegger - The Austrian Oak

Biography

Arnold Alois Schwarzenegger was born July 30, 1947 and is an Austrian-American actor, businessman, and former politician and professional bodybuilder. He served as the 38th Governor of California from 2003 to 2011. As of 2020, he is the most recent Republican governor of California.

Bodybuilding career

Schwarzenegger began lifting weights at the age of 15, and went on to win the Mr. Universe title at age 20 before winning the Mr. Olympia contest seven times; he remains a prominent presence in bodybuilding and has written many books and articles on the sport. The Arnold Sports Festival, considered the second most important bodybuilding event after Mr. Olympia, is named after him. He is widely regarded as one of the greatest bodybuilders of all time, as well as the sport's most charismatic and famous ambassador.

Acting career

Schwarzenegger gained worldwide fame as a Hollywood action film icon. His breakthrough film was the sword-and-sorcery epic *Conan the Barbarian* (1982), a box-office hit that resulted in a sequel in 1984. He appeared as the title character in James Cameron's critically and commercially successful sci-fi action film *The Terminator* (1984), and subsequently played a similar character in the films *Terminator 2: Judgment Day* (1991), *Terminator 3: Rise of the Machines* (2003), *Terminator Genisys* (2015), and *Terminator: Dark Fate* (2019). He also starred in other successful action films such as *Commando* (1985), *The Running Man* (1987), *Predator* (1987), *Total Recall* (1990), and *True Lies* (1994), in addition to comedy films such as *Twins* (1988), *Kindergarten Cop* (1990), *Junior* (1994), and *Jingle All The Way* (1996).

Political career

A Republican, Schwarzenegger was first elected on October 7, 2003, in a special recall election to replace then-Governor Gray Davis. He was sworn in on November 17, to serve the remainder of Davis' term. He was then re-elected in the 2006 California gubernatorial election, to serve a full term as governor. In 2011, he completed his second term as governor and returned to acting.

Fun fact

Schwarzenegger was nicknamed the "Austrian Oak" in his bodybuilding days, "Arnie" or "Schwarzy" during his acting career, and "The Governator" (a portmanteau of "Governor" and "Terminator") during his political career.

"Stuff": Before and After

Terminator 2: Judgement Day

Simply put, Terminator 2: Judgment Day is one of the best action movies ever made.

In the sequel, set 13 years after the events of the original, a reprogrammed T-800 (Schwarzenegger) is sent back in time to protect an adolescent John Connor (Edward Furlong) from another cybernetic assassin, the hyper-advanced T-1000 (Robert Patrick). The T-1000 is made of memetic polyalloy, a liquid metal allowing it to change its shape at will to mimic any human it comes into contact with. Two car chases, a helicopter crash, a shootout involving roughly 100 police officers and a chaingun, and a chemical truck collision at a late night steel mill follow as the T-1000 does everything it can to smoke John Connor, and it is 100% nonstop awesome.

Terminator 2 (or T2, as it was styled in its inescapable marketing campaign) was a bona fide phenomenon when it was released in the summer of 1991. It seemed like everyone in the world was talking about this movie, and it went on to become the biggest movie of the year, the biggest of both Schwarzenegger and Cameron's respective careers at the time, and the biggest R-rated movie ever made (again, at the time). And a huge part of that film's zeitgeist-capturing buzz were its much-touted visual effects, specifically how they were used to create the liquid metal look of the film's villain, the T-1000.

T2 was the first time mainstream audiences had seen CGI visual effects on this level, based on technology Cameron had experimented with on his previous film The Abyss. T2's effects were mind-blowing at the time, and earned Cameron his reputation for being on the bleeding edge of new filmmaking technology. And it's hard to overstate how game-changing the T-1000 was, in terms of both concept and execution (quite honestly, the series has never been able to top the T-1000). The only Cameron-helmed Terminator sequel gets some deserved criticism for essentially being the same movie as the first, but the action set pieces are some of the best ever filmed, and the upgraded liquid metal Terminator is the kind of once-in-a-lifetime idea that redefines genres and makes other filmmakers burn with jealous rage.

"TWINS": Before and After

Terminator 2: Judgement Day

Storyline

The story, though not exactly original, has potential. Genetic scientists, in an attempt to create the perfect human being, make a cocktail of sperm from six supermen and impregnate one superwoman. She has the baby, but then out pops another! It's Twins! But the twins aren't equally endowed with beauty, brains, biceps etc. No, one of them has the lot, the other has zilch. One is Arnold Schwarzenegger, and the other is Danny DeVito: beauty (if you like that sort of thing) and the beast.

Arnold decides to leave the island where a scientist has brought him up, and goes searching for his long-lost and long-dumped brother, finding him a car-stealing, small-time hood who trusts no one. And he's short, and bald, so he must be an evil schmuck, right? The two then team up and go off to try to find their dear old mum, getting into all sorts of incredible scrapes along the way, courtesy of large hairy bruisers, stolen rocket components, a couple of blonde girlfriends, nasty scientists, etc. etc.

Review

It's downright impudent and churlish to expect a wacky comedy like this to make sense, but should we not expect it to make us laugh! You could just about forgive Twins' plot contrivance (where does Arnie get his money if he was brought up on a desert island?), general silliness (twins scratching themselves simultaneously is funny once, maybe) and nonsensical story (if DeVito is so evil, how come he's actually got a heart of gold?), if only the film was actually amusing. It's not as if the raw material isn't there; DeVito is an Emmy award-winning actor who could coast this film if he had a decent script; the idea isn't a bad one; and even Arnie has considerable charm; but producer and director Reitman (Ghostbusters) simply fails to make the most of what he has. There are some good jokes - like when Arnie sees a poster for Rambo, tests his biceps against Stallone's, and walks off laughing - but one joke every half an hour simple isn't enough.

The humour, when it comes, is on a par with Reitman's Ghostbusters, but the film feels, rather than the solid comedy it is, like a massive missed opportunity.

Scenario 2

2. Why are home pages labelled "index.html"?

- Web server recognition
- Historical context
- Developer clarity

3. Why use .txt files over word documents?

- Simplest form of document
- Universally compatible

4. Creating hyperlinks to source web pages for proper acknowledgements

```
<p>Source: &copy; <a href="https://en.wikipedia.org/wiki/Arnold_Schwarzenegger" target="_blank">https://www.wikipedia.org</a></p>
```

Scenario 3

Question 1 – At the moment, I have three separate web pages – but how do I link them together to make a website? Can you show me using the index.html file?

Dear Arnold, using anchor points, href, and targeting code, we could implement the hyperlinks directly in-text.

```
||<a href="terminator.html" target="_blank"> The  
Terminator (1984)</a>||
```

By also coding the footer into a side profile, we created a friendlier user-experience. This created a main area for the hyperlinks that led to the alternate webpages.

```
<footer>  
  <div class="footercontent">  
    <h3>Quick Links</h3>

Arnold Schwarzenegger – The Austrian Oak

Biography

Arnold Alois Schwarzenegger was born July 30, 1947 and is an Austrian-American actor, businessman, and former politician and professional bodybuilder. He served as the 38th Governor of California from 2003 to 2011. As of 2020, he is the most recent Republican governor of California.

Bodybuilding career

Schwarzenegger began lifting weights at the age of 15, and went on to win the Mr. Universe title at age 20 before winning the Mr. Olympia contest seven times; he remains a prominent presence in bodybuilding and has written many books and articles on the sport. The Arnold Sports Festival, considered the second most important bodybuilding event after Mr. Olympia, is named after him. He is widely considered one of the greatest bodybuilders of all time, as well as the sport's most charismatic and famous ambassador.

Acting career

Schwarzenegger gained worldwide fame as a Hollywood action star. His breakthrough film was the sword-and-sorcery epic Conan the Barbarian (1982), a box-office hit that resulted in a sequel in 1984. He appeared as the title character in James Cameron's critically and commercially successful sci-fi action film The Terminator (1984), and subsequently played a similar character in the films Terminator 2: Judgment Day (1991), Terminator 3: Rise of the Machines (2003), Terminator Genisys (2015), and Terminator: Dark Fate (2019). He also starred in other successful action films such as Commando (1985), The Running Man (1987), Predator (1987), Total Recall (1990), and True Lies (1994), in addition to comedy films such as Twins (1988), Kindergarten Cop (1990), Junior (1994), and Jingle All The Way (1996).

Political career

A Republican, Schwarzenegger was first elected on October 7, 2003, in a special recall election to replace then-Governor Gray Davis. He was sworn in on November 17, to serve the remainder of Davis' term. He was then re-elected in the 2006 California gubernatorial election, to serve a full term as governor. In 2011, he completed his second term as governor and returned to acting.

Fun fact

Schwarzenegger was nicknamed the "Austrian Oak" in his bodybuilding days, "Arnie" or "Schwarzy" during his acting career, and "The Governator" (a portmanteau of "Governor" and "Terminator") during his political career.

Scenario 3

Question 2 – Sylvester Stallone (a good friend of mine!) said I needed to add semantics to my web pages – what does he mean? Do you have any suggestions on how I can add structure and semantics to my web pages? Show me your semantic power by placing them in the correct place!

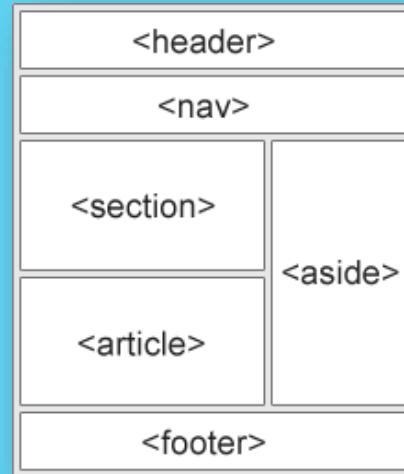

By using non-semantic tags:

- `<div class="">`
- `<head>`
- `<body>`

As well as semantic tags:

- `<nav>`
- `<footer>`
- ``

...to contain lump code, we minimised space wastage and created flow, making it easier to manage and view.

Arnold Schwarzenegger — The Austrian Oak

Biography

Arnold Alois Schwarzenegger was born July 30, 1947 and is an Austrian-American actor, businessman, and former politician and professional bodybuilder. He served as the 38th Governor of California from 2003 to 2011. As of 2020, he is the most recent Republican governor of California.

Bodybuilding career

Schwarzenegger began lifting weights at the age of 15, and went on to win the Mr. Universe title at age 20 before winning the Mr. Olympia contest seven times; he remains a prominent presence in bodybuilding and has written many books and articles on the sport. The Arnold Sports Festival, considered the second most important bodybuilding event after Mr. Olympia, is named after him. He is widely regarded as one of the greatest bodybuilders of all time, as well as the sport's most charismatic and famous ambassador.

Acting career

Schwarzenegger gained worldwide fame as a Hollywood action film icon. His breakthrough film was the sword-and-sorcery epic Conan the Barbarian (1982), a box-office hit that resulted in a sequel in 1984. He appeared as the title character in James Cameron's critically and commercially successful sci-fi action film *Terminator* (1984), and subsequently played a similar character in the films *Terminator 2: Judgment Day* (1991), *Terminator 3: Rise of the Machines* (2003), *Terminator Genisys* (2015), and *Terminator: Dark Fate* (2019). He also starred in other successful action films such as *Commando* (1985), *The Running Man* (1987), *Predator* (1987), *Total Recall* (1990), and *True Lies* (1994), in addition to comedy films such as *Kindergarten Cop* (1990), *Junior* (1994), and *Jingle All The Way* (1996).

Political career

A Republican, Schwarzenegger was first elected on October 7, 2003, in a special recall election to replace then-Governor Gray Davis. He was sworn in on November 17, to serve the remainder of Davis' term. He was then re-elected in the 2006 California gubernatorial election, to serve a full term as governor. In 2011, he completed his second term as governor and returned to acting.

Fun fact

Schwarzenegger was nicknamed the "Austrian Oak" in his bodybuilding days, "Arnie" or "Schwarzy" during his acting career, and "The

Terminator

Movie Reviews

The Terminator

Director James Cameron's breakout 1984 film is a gritty cyberpunk slasher movie about an insane robot from the future. It's also one of the most original films ever made (claims of plagiarism from Harlan Ellison notwithstanding), and easily the most unique of the Terminator franchise in that it's actually kind of scary.

This movie introduces us to Sarah Connor (Linda Hamilton), who has been targeted for termination by Skynet, an AI created in the near future to control the world. All Skynet needs is everyone and doomsday will be here. Skynet sends a squad of Terminators from the year 2029 to kill John Connor, who is destined to lead resistance fighters led by John Connor. Skynet sets the T-800 (_____), a cyborg designed for infiltration and assassination, back through time to kill Sarah before she can give birth to John. The resistance fighters send one of their own, a decidedly not-so-cute Kyle Reese (Michael Biehn), after the T-800 to try and protect Sarah from it.

Terminator 2: Judgement Day

Allegedly inspired by a fever-induced nightmare, Cameron based the look and feel of the movie off of a sketch he made immediately upon waking, of a leering metal skeleton crawling across the floor wielding a butcher knife. Less of an action movie than a grimy sci-fi horror film (although there is plenty of action), the Terminator also sets the template that all but one of the subsequent films in the franchise would be. It's a solid movie, but it's not really a chase movie, but the Terminator elicits some of the most genuine "oh cool" moments of the series when he just keeps refusing to die.

Twins

Storyline

The story, though not exactly original, has potential. Genetic scientists, in an attempt to create the perfect human being, make a cocktail of sperm from six supermen and impregnate one superwoman. She has the baby, but then pops another! It's Twins! But the twins aren't equally endowed with beauty, brains, biceps etc. No, one of them has the lot, the other has zilch. One is *Arnold Schwarzenegger*, and the other is Danny DeVito: beauty (if you like that sort of thing) and the beast.

Arnold decides to leave the island where a scientist has brought him up, and goes searching for his long-lost and long-dumped brother, Danny. They find each other, and the two brothers team up to try and find their mom. Must be an evil schmuck, right? The two then team up and go off to try to find their dear old mom, getting into all sorts of incredible scrapes along the way, courtesy of large hairy bruisers, stolen rocket components, a couple of blonde girlfriends, nasty scientists, etc. etc.

Review

It's downright impudent and crassish to expect a wacky comedy like this to make sense, but should we not expect it to make us laugh! You could argue that it's a bad plot device (whereas *Arnold Schwarzenegger* is a good plot device), but that's not the point. The silliness (*Twins* scratching themselves simultaneously in gory once, maybe) and nonsensical story (*If De Vito is so evil, how come he's actually got a heart of gold?*), if only the film was actually amusing. It's not as if the raw material isn't there: DeVito is an Emmy award-winning actor who could coast this film if he had a decent script; the idea isn't a bad one; and even *Arnie* has considerable charm; but producer and director Reitman (*Ghostbusters*) simply fails to make the most of what he has. There are some good jokes - like when *Arnie* sees a poster for *Rambo*, tests his biceps against *Stoneface* S., and walks off laughing - but one joke every half an hour simple isn't enough. The humour, when it comes, is on a par with Reitman's *Ghostsbusters*, but the film feels, rather than the solid comedy it is, like a massive missed opportunity.
